Plan Summary Statement

This plan summary accurately reflects the content of the toxic substance reduction plan for Xylene, prepared by Hendrickson International Limited and dated December 15, 2017.

Statement of Intent

Xylene is contained in product used at Hendrickson International Limited (Hendrickson) in our processes. Whenever feasible we plan to eliminate or reduce the discharge of Xylene in full compliance with all Federal and Provincial Regulations.

Reduction Objectives

Our goal is to reduce the use of Xylene in our product at our facility within five years of preparing this plan.

Description of Substance

Xylene is contained in paint products used at the facility. The product was recently introduced when a new paint line was installed.

Toxic Substance Reduction Option to be Implemented

Due to the fact that their customer mandates specific material compositions to meet customer performance specifications, it is difficult for the company to commit to any of the other Options that were presented throughout this plan. However, the following Option will be implemented:

Option 3 - Additional training and repeat training in the cleaning operation of the paint lines so as to ensure that waste and release of emissions is minimized.

The company will also continue to strive toward seeking possible reduction options in the future.

Plan Certification for Xylene

As of December 15, 2017, I, Paul Schouwstra certify that I have read the toxic substance reduction plan for the toxic substance referred to below and am familiar with its contents, and to my knowledge the plan is factually accurate and complies with the Toxic Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act.
